

Technical rider Lele Lele

We need two podiums, with measurements app. 1 X 1 X 1 meter each, for the sitar and the tabla players. Tables with likewise measures can also work but need to be stable as the musicians sit and play on them.

We are dependent on good listening on stage so preferably one monitor each if possible.

Other needs:

Josef (vocal, acc.guitar): 1 vocal mic with stand, 1 DI box.

Moa (tabla, vocal): 2 condensor mics with stands.

Pontus (clarinet): brings an own clarinet-microphone and a cable (XLR).

Mihail (tamboura, vocal): 1 vocal mic with stand. 1 XLR cable

Brings an AER amp that has a line-out (XLR) & will be plugged into PA

Stian (sitar, tuba): 2 DI box lines

Brings a contact mic for the sitar and an AMT mic for the tuba

If possible one extra condensor mic for the sitar (with stand) to get optimal sound
